

Name : Mahamadi Nikiema
Student Number: 321155820

Question 1

The number of parameters in the network is: **8070**

Question 2

The gradient did not converge

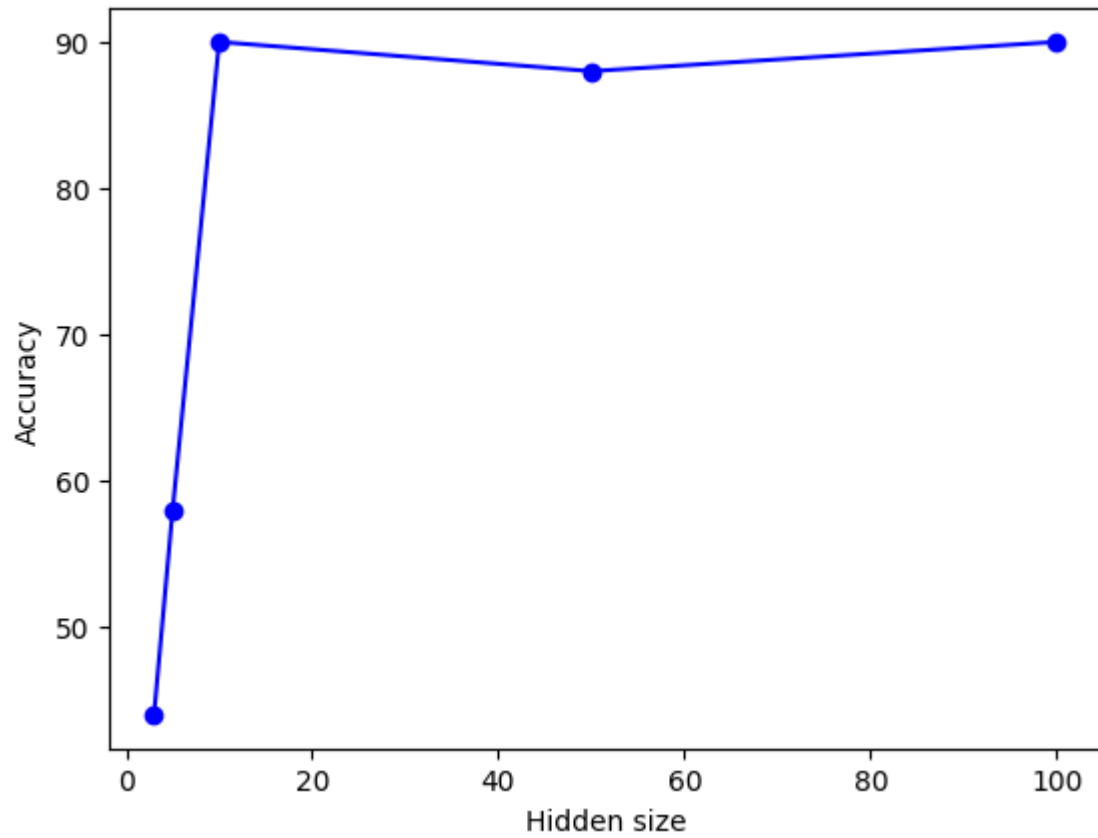

Question 3

The accuracy is **68%**

Question 4

The best is the network with ReLu activation function and the accuracy is **90%**

Question 5

We will use the model with **10 hidden layers** because it outperforms the other models.
